### SECTION – D

Answer the following.

(1×12=12)

12. Year by Year the population of world is increasing but resources are not increasing with the same proportion. India is the second most populated country in the world and most of its population is settled in villages or rural part you can say. The gap between urban and rural sector is increasing exponentially. Success of new economic trends such as micro finance and increasing number of companies in the rural sectors that exists a large untapped market at the bottom of the economic pyramid. In the current scenario rural markets and self-help groups have gained never before significance. Many institutes both profit and non-profit are focusing on rural entrepreneurship.

Danapur is a village near Patna, with a population of 250 families. It is far from all the amenities of an urban area be it good transportation facility or 24 hours electricity because of which infrastructure, education and employment opportunities are inadequate. The main source of income in the village is agriculture which is around 1000 INR per month. As agriculture related activities are seasonal the women in the village do knitting, sewing and allied activities when they are not engaged in agricultural activities. The knitting work done by this woman are exceptional and can compete with high end designers.

**Questions :**

- i) Do this rural people need an entrepreneur who can help them to reach to right buyer. Justify your answer.
  - ii) What are the other business options available which these villagers can do when they are not doing activities related to agriculture ?
-
